1 DECLARATION

In FUNTRITION S.A.S of PROCAPS SA, we understand that the protection of the environment is the main axis for the development of a sustainable operation, that is why objectives and strategies are established that contribute to the optimization and rational use of resources and the prevention of environmental pollution, promoting the culture of environmental protection in our stakeholders as part of our corporate environmental responsibility.

We are based on compliance with legal and regulatory requirements applicable to environmental management, through the design, implementation and monitoring of programs under a preventive and continuous improvement scheme, supported by the competencies of our human capital.
