Inspiration Center

ART YOU CAN TASTE
SCIENCE YOU CAN TRUST

Inspiration Center

Our Inspiration Center offers integrated **gummy design support**, where each formula is created from **scratch** and **shaped** around our partners' unique objectives.

We define the **concept by exploring:**

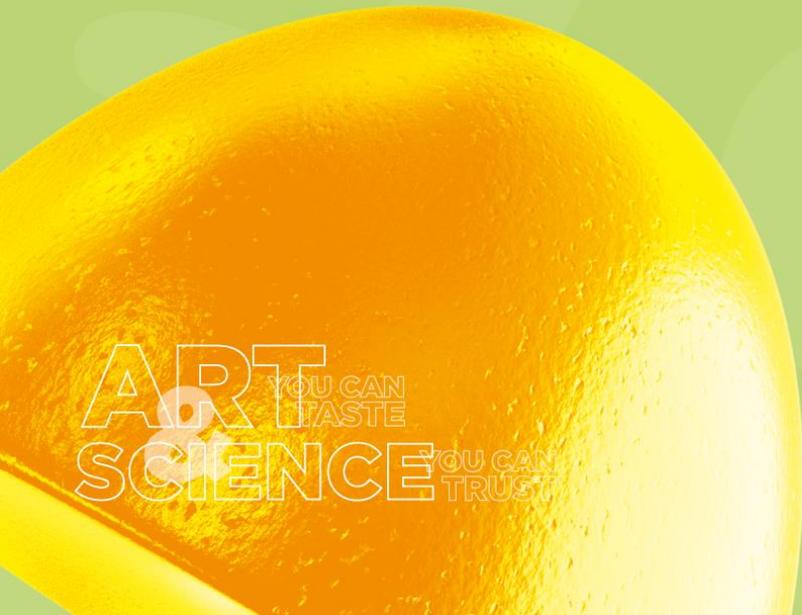

Organoleptic Definition:
Shape, Flavor, Color and Textures that complement overall consumption.

Science you can Trust:
Functional, science-backed ingredients to offer high quality formulations.

Pilot plant Prototyping, Feasibility evaluation.

ART & SCIENCE
YOU CAN TASTE
YOU CAN TRUST

Let's define the ideal technology....

ART YOU CAN TASTE
SCIENCE YOU CAN TRUST

Core Gummy TECHNOLOGIES

A classic gummy experience: **Shiny, chewy, non-sticky, and delightfully nostalgic**, designed to feel like candy while performing like a supplement.

Sugar Free

A clean, **plant-based gummy** that lets your flavor shine. **Heat resistant, vegetarian-friendly**, and perfectly suited for mineral formulations.

Vegetarian Friendly

Fruit-based, offering a clean bite, enhancing natural flavors, and with reliable stability that holds up without melting.

Sugar Free

Vegetarian Friendly

GummieX[™] blends **multiple hydrocolloids** to deliver the best of both worlds: Unique texture combinations paired with smart supply chain efficiencies.

Sugar Free

ART YOU CAN TASTE
SCIENCE YOU CAN TRUST

Next-Gen Gummy TECHNOLOGIES

A visually striking, dual-composition gummy that combines color, flavor, and ingredient differentiation in one format.

Aerated gummies that offer a fluffy like texture and the ability to mask unwanted flavors.

Bringing a unique two-in-one sensorial experience that combines the best of traditional gummies and aerated gummy technologies

Under Development*

Center - filled gummies for actives not common in the gummy world
