Sodium • Potassium • Vitamin C • Zinc

However, **when the body doesn't have enough water or electrolytes it suffers what is known as dehydration.** In fact, one of the main causes of dehydration is the loss of electrolytes, through excessive sweat, when practicing sports. This, in turn, can cause tiredness, loss of strength and stamina.

We can
Gummy
that!

For this reason, athletes have an increasing interest in balancing their electrolyte levels through innovative delivery formats that help them prevent sports injuries, protect their joints, and boost their performance.

With powerful actives such as Sodium, Potassium, Vitamin C, and Zinc, Electroboost is a sugar-free product idea brought to support athletes in their muscle and nerve recovery processes.

This product can be part of your portfolio today!
